

Grace Arnold

SOFTWARE ENGINEER | Full-stack development

grace.m.arnold@outlook.com | github.com/gmarnold | linkedin.com/in/grace-m-arnold
Open to remote roles and opportunities in Chicago and St. Louis.

PROFILE

Software engineer with full-stack production ownership, experience building customer-facing features and APIs, and a background in research and teaching. Professional frontend work in Vue and Angular; current React work through a personal portfolio.

TECHNICAL SKILLS

TypeScript / JavaScript, Vue.js, Angular, Node.js, Express, GraphQL / REST, PostgreSQL, DynamoDB; AWS Lambda, AppSync, S3, CodePipeline, CloudWatch; GitHub Actions; Jest / Vitest, Postman; Python, NumPy, Pandas; Java, C++.

EXPERIENCE

QSRSoft | Jun 2023 — Sep 2026

Full-Stack Software Engineer | Remote

Owned Calendar and Chat for 1,000+ franchise managers, from requirements and technical design to rollout and production support. Built full-stack applications and APIs with TypeScript, Vue, Node.js, PostgreSQL, DynamoDB, and AWS. Wrote tests, validated releases, investigated production issues, and mentored three interns.

Zoom Video Communications | Jul 2022 — Feb 2023

Full-Stack Software Development Engineer | Remote

Developed and tested Android features and backend integrations using Java, C++, PostgreSQL, and Linux/Unix. Collaborated with distributed engineers, designers, and QA; worked with Jenkins and GitLab CI/CD.

BlackRock | Jun — Aug 2021

Full-Stack Software Engineering Intern | Remote

Led an intern team building an Angular, TypeScript, Java, and REST API application that aggregated and presented thousands of operational exceptions.

Illinois Institute of Technology | May 2019 — May 2021

Wireless Networking & Communication Research Assistant | Chicago, IL

Redesigned and optimized Python analytics and visualization workflows handling 17 GB of research data per day. Led Python, NumPy, and Pandas workshops for a 14-member team.

GE Healthcare | Jul — Aug 2020

Technical Product Manager & Tableau Visualizations Engineer | Remote

Built 10 KPI dashboard visualizations. Worked with stakeholders to validate data, clarify requirements, and improve usability for the HR Digital Technology Data & Analytics team.

EDUCATION & MENTORSHIP

Illinois Institute of Technology — M.S. & B.S. in Computer Science, May 2022

Teaching Assistant, Jan 2019–May 2022: led Computer Organization/MIPS and Data Structures labs serving 80+ students. Founder and President of Google Developer Student Clubs; taught Google Cloud and Android development.

SELECTED CREATIVE PROJECT

Star Baker — Sole developer | Unity, C#, WebGL | grachay.itch.io/star-baker

Built and published an action side-scroller with obstacle spawning, scoring, power-ups, and collision feedback. Documented debugging decisions and remaining limitations. Art assets from the Unity Asset Store.
